Education

BSC in Computer Science Engineering

Green University of Bangladesh

02/2022 – Present

Purbachal American City, Kanchan, Rupganj,
Narayanganj-1461, Dhaka, Bangladesh

Higher Secondary School Certificate(HSC)

Govt Alimuddin Collage | GPA- 4.83

04/2018 – 04/2020 | Hatibandha, Lalmonirhat

Secondary School Certificate(SSC)

Govt SS High School | GPA - 4.44

01/2016 – 02/2018 | Hatibandha, Lalmonirhat

Technical Skills

Programming Languages

C, C++, OOP, Python, JavaScript

Frontend

HTML, CSS, Tailwind CSS, JavaScript, PHP, React Js,
Node Js,

Database

MySQL, MongoDB

AI & Machine Learning

Dataset, Supervised Learning, Unsupervised
Learning, Model Evaluation

Core Concepts

Data Structures & Algorithms, Object-Oriented
Programming (OOP), REST API

Tools & Technologies

Codeblocks, Apache NetBeans, Vs code, Sublime
Text, Jupyter Notebook, Cisco, Draw.io, Figma, Git
& GitHub.

Soft Skills

- Strong problem-solving and analytical thinking abilities
- Effective communication and teamwork skills
- Ability to manage time and meet deadlines
- Quick learner with adaptability to new technologies

Languages

Bangla
English

Profile

Aspiring Software Engineer with hands-on experience in developing full-stack web applications and a strong understanding of software development principles. Proficient in JavaScript, React, Node.js, and database management. Passionate about problem-solving, clean coding, and building scalable systems. Continuously improving skills in Data Structures and Algorithms to become a better engineer.

Projects

UpSkill

09/2025 – 10/2025

Upskill is an online learning platform designed to help students and professionals improve their skills through structured courses and interactive learning modules. The platform provides a clean and user-friendly interface where users can explore courses, track their learning progress, and access educational resources across various topics. Upskill focuses on delivering an organized, accessible, and engaging learning experience, making it easier for users to develop new skills and advance their careers.

Using: HTML, CSS, JS, React

GitHub Repository: <https://github.com/bidhan31/UpSkill> 

JobSeekerBD

05/2025 – 05/2025

JobSeekerBD is a web-based job portal designed to simplify the recruitment process for both job seekers and employers. The platform allows job seekers to easily browse job listings, filter opportunities based on their skills and preferences, and apply directly through the system. On the other hand, companies can create accounts, post job openings, manage applications, and connect with suitable candidates efficiently. This project focuses on delivering a clean UI, seamless navigation, and an efficient job-application workflow to enhance the overall hiring experience.

Using: HTML, CSS, JS, PHP

Database: MySQL

GitHub Repository: <https://github.com/bidhan31/JobSeeker> 

Green Earth

10/2025 – 10/2025

This webpage is an eco-friendly tree-planting platform designed to encourage people to plant and purchase trees. It features a clean, nature-inspired layout with tree categories on the left, tree listings with images and prices in the center, and a cart section on the right. Users can browse different types of trees—such as fruit, flowering, medicinal, and ornamental—and easily add them to their cart to support the “Plant a Tree, Grow a Future” mission.

Using : HTML, CSS, JS
